Dear Delaware Legislators,

Delaware's plan to follow California's plan to ban entirely all gasoline and diesel fueled motor vehicles in DE by 2035 is insane from economic, environmental, and just plain common sense perspectives. Further, Delaware will NOT have the electrical power capacity to charge up all the new EVs mandated by this plan for another century, nor the charging stations deployed sufficiently throughout the state.

If this plan is passed, following the lunacy of California, my wife and I will be moving out of Delaware as quickly as we can to a state that is not infested with lunatic politicians.

THE SUPPORTERS OF THIS PLAN HATE DELAWARE AND THE UNITED STATES OF AMERICA AND ARE TRYING TO DESTROY OUR COUNTRY FROM WITHIN.

Robert Fischer, Lewes, DE
