To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

This can't be real life. How can this even be a thing. I don't know who's running the show over there, and I don't know how they got their position, and I don't know them personally. But I do know, if they are at all considering this ridiculous notion of eliminating gas and diesel motor vehicles altogether, then they are part of the problem and not fit to making these types of decisions. This is suppression of freedom of choice, government overreach (they're favorite thing to do), and it will cause so many issues for the common man and y'all know it. You don't need to hear Joe Schmoes like me go on and on about it, you already know how the people truly feel. It's a hard NO. From the peoples mouths to your ears to big brothers pen. No no no. We've been through enough man, stop pushing buttons already. Vote No.

Thank you
