To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

Dear Sir;

AS a 15 year resident of Delaware, I am totally against the actions of the committee to accelerate the implementation of California 0 emissions standards for the statue of DE. Besides limiting the type of vehicle I can purchase in my home state, these laws will put the purchase of a new (electric) vehicle out of reach of the middle income resident.

The implementation of these standards will certainly be reflected in my voting choices in the near and distant future!!!

Sincerely;
Bill Riffel
Sussex County DE
