To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

Leave "We The People" alone to make our own choices.. Let the business of battery powered vehicles survive on its own merit. Stop trying to step on or otherwise destroy freedom, liberty... Let the free market rule as it should in a Constitutional Republic.

I say this while believing EVs have thier place in our economy due to personal belief or choice. California Drakonian laws that mandate will not fly here in Delaware.
