Kyle,

Please make it part of the record As a Delaware resident. I James Williams of 583 Shady Bridge Rd Marydel De 19964 do appose the ACC2 platform for the clean air act. I do believe we need to keep in line with the current Federal standards. the current data shows we are doing great and at compliant levels. Please reach out for new and updated data vs the older data.

Following California to a T is a clear mistake.

Thanks for your time and the departments time. I did find the meeting tonight very educational. I also appreciate and thank all involved in making our environment Better!!
