To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

Dear Kyle,
I am against the eventual banning of gasoline vehicles. We are no where close to the use of electric cars. Electric carrs are expensive, batteries cannot be refurbished and will be
In the landfill forever. Our electric grid will not be able to handle the amount of electricity needed. You evidently have not
looked into the problems with electric cars.
I'm sure if you do your due diligence you will
realize that we are a long way from going ELECTRIC!
