To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

This proposal must be stopped right now, we are not California this is a working family state.

The entire concept is many decades to soon for the existing infrastructure.

Where does someone who lives in a row house in Wilimington even if they can afford one get it charged overnight.

The cost of replacement batteries is just tremendous plus labor to install.

Stop this now.

Respectfully
James Carbone
