To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

Why are our elected official, not leaders, hell bent on destroying the American way of life. It is fact that China and India account for over 90% of the so called green house gasses that is claimed to be destroying our climate. Force them to change their ways before you try and make the American people sacrifice our way of life and result in zero change in measurable greenhouse gases.
