To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

I am strongly opposed to Delaware doing anything remotely close to what is being done in California. This is the dumbest thing next to leaving the border wide open, that I have ever seen. Will John Carney and the Democrats being issuing State Assisted EV'a to all the Delaware residents? I CANNOT AFFORD to purchase an electric vehicle. Nor do I have time to sit at charging stations waiting for my EV to be charged by a coal fired Electric producing plant.

John Carney, this is the single dumbest idea you have had yet and you have had some beauties!!!

Unbelievably stupid!

Respectfully

Michael Furman
