To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

I won't waste your time with repetitive topics about this issue, as I'm sure you're getting bombarded. But myself and family of four are 100% against this proposed law/regulation regarding gas vehicles and cramming electric down our throats. You also need to get this god damn agency straightened out-between this, the cape henlopen restaurant idea, and the surf tag issue, I question if there's a single brain cell in anyone's head at DNREC and the Governors office. HARD NO!!!
