To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

This is a pipe dream. The world runs on oil. Most of our power is generated from Natural gas and diesel. Is Del dot going to replace all its trucks with electric. How will we pave the roads. How will we remove the snow. How will deliveries be made. This is a joke and a pipe dream of the left. This line of thinking is totally incompetent and ridiculous. This will put us farther and farther in the hole with outrageous spending. Where will the money come from? From the people who don't want it. Our so called leader are put in office by us for us. This is just another way for the elitists to line their pockets on the backs of the people. I say NO NO NO NO NO.
Sincerely, John Patchell,New Castle
