To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

Please Don't Impose California's absurd electric vehicle mandates on Delaware!

We are not California! Delaware's constitution **Does Not g**ive you the authority to do so.

It would destroy our chicken industry's delivery system. It would destroy the trucking companies and all the other businesses dependent on trucking. You don't have the right to dictate what I choose to buy!

DO NOT go through with these unfair, unconstitutional ,job killing regulations!
