To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

Thank you, Mr. Krall, for the opportunity to address you on a couple pressing issues.
My name is Reid Cummings and I have been an Innkeeper in unincorporated Fenwick for 35 years. I was intrigued with the comment from Mr. Bivens regarding the must have for the restaurant with-in Cape Henlopen State Park. "We must have this due to funding short fall'(paraphrase) Today Delaware is the last state to include condo rentals and most all short-term rental taxation schemes. Do you understand beach house rentals are not required to remit any lodging tax to the state even though this rental type is number one now for beach vacations? Not hotels/motels. Can you imagine the bolstering this would create or your budget I urge you to drive to Sea Colony stand in front of it and ask yourself why this mega resort is and the three others they own Bay Side and Bear Trap contribute nothing to the State budget. Please run my concerns up the totem post at DNREC. Please urge the legislature to do the same.

PS. your electric lawn mowers are a no go.
