To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

I thought we lived in a free country. I have read the constitution , maybe you should. Apparently i was mistaken. People like you are going to demand that we have electric cars. Who can afford to pay $60,000.00 for a car. $5000.00 or more for charging station in your house, and your electric bill increasing by 40 to 50% And what happens when the electric goes out like in California. I don't want an electric car and I am not buying an electirc car. Whats next being told were to live, were to shop. I am intelligent enough to decide what I want for myself Please do not pass this proposal. Kathleen and Louis Migliaccio, 30038 west mill run, milton, de 19968
