To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>; Collins, Rich G (LegHall) <Rich.Collins@delaware.gov>; Schwartzkopf, Peter (LegHall) <Peter.Schwartzkopf@delaware.gov>; Shupe, Bryan (LegHall) <Bryan.Shupe@delaware.gov>; davidwilson@delaware.gov <davidwilson@delaware.gov>

This email is to express my outrage at the Delaware Department of Natural Resources and Environmental Control's proposed plan to follow California regulations as it relates to "zero-emission" vehicles.

I attended the virtual public workshop on December 13, 2022 and I am disgusted with the "idea" that "regulations" supplant "legislation." As a 70-year old who grew up in this country believing that local, city, state, and federal government works at the behest of "we citizens," it is unfathomable how DNREC believes it is okay to try and ram this regulation down upon us.

There are so many factors with this regulation that make me livid. While I won't go into detail here, I am registering my disapproval for this and will vow to fight it.

My wife and I cannot afford this excuse to take away further rights granted us by our citizenship. Nor do we wish to be saddled with the expenses that would be involved with such a process.

We are reasonable people who believe that we all should have clean air and water, but not at the sole expense of the population of this country, and more importantly, the residents of this state.

I again reiterate my intention to fight this proposal.
