Please do not adopt the California plan for clean emissions for I will not be able to afford an electric vehicle. I am already paying for a hybrid, mortgage, and all the rest that go with home ownership.

I work in the aggregate industry and if tri axle dump trucks have to go electric, that will put thousands out of business as well as me.

I don't want to use my savings and retirement funds for this plan. I like to eat, and feel warm or cool in my home. This plan will disrupt the lives of too many Delawarians.

Thank you
