Hello Kyle,

I ask DENREC not to require fishermen to have EVs for drive on beach.

To single out our group seems unfair and really unnecessary in the overall picture. Many may have perfect operational vehicles for the beach that will last for years to come. Possibly a family may need to purchase an EV but not necessarily a more expensive beach compliant one. In addition why should we penalize our vacationers from out of state where sanctions are not in place on vehicles.

Please consider. Thank you.
