To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

Sir, with due respect; we can not for the betterment of the residents of.Delaware continue to push through non particent plans which alter we the people without a full review how we will be affected. (De. Admin Code 1140)
We all want a safe environment and a safe way of getting there without harm to the people.
We must do better and not just rush in a frinze to later look back and see the harm done to the people.
Please, slow this process down and move forward in slower steps to enable us to better work together.
Respectfully,
Gloria Huber 410-292-3465
Sussex Co.
