To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

Dear Mr. Krall,

I am a resident of Delaware and as such I am 100% opposed to this legislation that plans to eliminate traditionally powered vehicles.

I am also concerned about the safety of EV's as their frames are lighter and batteries massively heavier which will lead to increase deaths from EV crashes among other risks that have been reported recently on the national news (i.e., EV's catching on fire).

I do not approve of my tax dollars going to wasteful EV charging stations, diverting electric power from an already strained infrastructure and eliminating my option and right as a free American to purchase a vehicle that I see fit to utilize for myself, my family and my occupation.

Last I checked, we do not live in Communist China nor do we live in California...or do we?

I do not approve of our legislature and governor following the edicts of any other State that has not been voted on and approved by the Delaware population.

If you continue to work toward this end of banning traditionally powered vehicles, then I will make it my top priority to fight against that and your office and I will continue to expose your position on this issue to more and more Delawareans.

Sincerely,

Cathleen Casey

Ocean View, Delaware
