To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

My name is Lavina Slavin, I live in Smyrna, Kent County.

I DO NOT want government or anyone else telling me what vehicle I have to buy. I have the right to buy any vehicle I want. Our government does not have the right to force people to purchase something they do not want.

Also, you must not be aware that the United States does not have the infrastructure to support everyone getting an electric vehicle. It is harder on the environment to make the battery for electric vehicles. Let's no forget about all the problems electric vehicle are having and the cost of an electric vehicle. People cannot afford an electric vehicle even with the so-called subsidies the government is giving. It is just not feasible at this time.

This is definitely government overreach!

A concerned citizen,
Lavina Slavin
