To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

I am totally against Gov. John Carney's direction to promulgate the California regulations in Delaware, which include zero-emission vehicle (electric) standards. Under the regulations Delaware is adopting, the sale of traditionally fueled light-duty passenger cars, trucks, and SUVs will be rapidly scaled down starting in late 2025, culminating with a total ban on the sale of new gasoline and diesel-powered vehicles in late 2034 (model year 2035).

This action will create severe economic burdens on Delaware and Nationwide citizens and will achieve no sustainable environmental impact!
