To: Krall, Kyle (DNREC) &lt;Kyle.Krall@delaware.gov&gt;

Dear Mr Krall,

Coming upon the notification late, I'm opposed to the mandated purchasing of only Electric vehicles. While the Governor did this through executive order, this will be fought.

There are so many reasons why we should keep the Purchase of electric vehicles as a choice and not mandated. One of which is the financial burden it will put a middle and lower income households, Many of whom have no way to plug in vehicles in their apartment or condo complexes.

I do not have the income to purchase an Ev nor do I want to add to the environmental havoc these mandates will incur.

We are asking you to cease implementing all mandated regulations. The people need to keep their freedoms and this mandate is unconstitutional.

Respectfully,

Donna Latteri
