To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

Dear Mr. Krall,

I will be unable to attend the meeting on November 15th; I oppose the amended regulations which are both unnecessary and burdensome.

The stated legal basis for amending existing regulations is the need to comply with the *U.S. Environmental Protection Agency* (EPA) Ozone National Ambient Air Quality Standards (NAAQS). Delaware already meets the standard by a significant margin.

If you would like more detail, please let me know.

Respectfully,

Janis Chester, M.D.

Dover, DE
