To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

This is a poor idea for the State of Delaware. If you go to all electric then there will be no food moving on the highways to stores.

Farmer will not be able to get their grain, veg, corn, soybeans, sorghum or any other crop to the market. Keep this up and we will not be having food to eat.

I am not going to buy a electric car just to be able to go get medicine or any other item needed. Keep this up and there will be no money to pay the State Taxes that pays your salary.
