To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

Dear Mr.Krall and all the folks at DNREC,

The citizens of Delaware need this passed right away. Please support this policy for the good of us all. We need electric vehicles and the opportunities to be able to purchase one at competitive prices. Vehicles right now contribute a huge amount of greenhouse gases to our air, and we can do something about it with ACC2. We want to be part of creating a cleaner environment for ourselves and our children.

Thank you.

Sincerely,

Karen Barker

Newark, DE
