Application for Animal Waste Storage/Transfer Facility Permit

Please type or print application.

1. Applicant/Owner (Permittee)

- a. Name/Title: _____

- b. Address: _____
- c. Telephone: _____
- d. Certification:
"I certify that the information contained within this application, and any attachments thereto, is, to the best of my knowledge, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of a fine and imprisonment for willful violations."

Signature: _____ Date: _____

2. Project Design Engineer

- a. Name: _____
Contact information: _____
- b. Address: _____
- c. Telephone: _____

3. Brief Project Description: _____

4. Number of Tanks/Storage Units: _____

5. Individual Tank/Storage Unit Information (provide additional sheets as necessary):

Project Name: _____

Tank/Unit Identification Number: _____

Type or Product: _____

Dimensions (feet) _____ Volume (gallons)

Fabrication Materials: _____

Maximum Volume of Products to be Stored at Any One Time (gallons) _____ Average Volume to be Stored (gallons) _____

Maximum Rate of Transfer of Product _____ Average Rate of Transfer of Product (while transfer is taking place) _____

Dimensions of Retaining Dikes (if applicable) (feet) _____ Volume Retained by Dikes (if applicable) (gallons) _____

6. Inspection Procedures (Include frequency and method to be used.)

This application shall not be considered complete and shall be returned to the applicant unless accompanied by the following documents:

1. Two Sets of Plans and Technical Specifications for the Facility(ies) to be Constructed:

The plans for the facility should indicate property lines, driveways, buildings, structures, facilities used for material storage (both above-ground and underground tanks), pipelines, valves and appurtenances, diking around storage facility (if applicable), drainage areas and paved areas. Any areas reserved for future expansion or additional storage should also be noted on the plans.

The technical specifications should outline the sizes, capacities and construction materials for tanks, pipes, appurtenances, process equipment, venting devices, etc. Information on inspection procedures for the operation and maintenance of the storage facility must also be included.

All plans and specifications submitted must bear the seal and signature of a Delaware-licensed Professional Engineer.

2. Design Report:

The Design Report should describe the design standards used for tank/storage facility construction, measures for insuring tank/storage facility integrity and character of the material used for construction.

3. U.S.G.S. 7.5 minute series topographic map showing location – one (1) copy.
4. Documentation that the county or municipality having jurisdiction has first approved the activity by zoning procedures provided by law.
5. A check in the amount of one hundred dollars (\$100.00), made payable to the State of Delaware to cover the applicable permit application review fee.
