

DNREC Sediment & Stormwater Listserve Update: August 2025

This month's topic:

1. 2025 CCR Recertification Course

1. 2025 CCR Recertification Course

CCR recertification is for CCRs whose certification will expire at the end of 2025 and would like to continue their certification. This eight-hour course highlights any changes in the Sediment and Stormwater Program and regulations along with newer approaches to stormwater management. The 2025 CCR recertification will consist of two four-hour online webinar sessions using a virtual platform (MS Teams), held on **Thursday, October 23rd** and **Thursday, October 30th 2025** from 8:00 AM until noon each day.

As of 2021, the Contractor Training Program (Blue Card) certification is a prerequisite for all CCR certifications. This training is available online at the Delaware Learning Center. For more information, please visit the [Sediment and Stormwater Program's Training and Certification webpage](#). All CTP certifications obtained prior to 2020 are no longer valid.

Notification of the upcoming CCR recertification has been sent via email as of July 31st. If you did not provide an email address during your previous training or have changed your email address, please email your full name, CCR number, and valid email address to DNREC.Stormwater@delaware.gov so that we can update our records. If you are up for recertification and have not received this notification, please contact the Program.
