

Slaughter Beach Resilient Community Partnership Open House June 3, 2016

Thank you for attending!

Your input will guide the assessment of Slaughter Beach's vulnerability to coastal hazards and help us work towards a safer and more resilient community.

**A short project overview presentation is scheduled for
5:20 pm and will be repeated at 6:15 pm.**

The goal of tonight's open house is for you to:

- Learn about the Resilient Community Partnership
- See the results of the Community Values Survey
- Provide feedback on the draft Town Vision Statement
- Tell us how flooding, wildfire, and extreme heat events have impacted you and the community
- Speak with subject matter experts about flooding issues and FEMA floodplain maps.
- Learn about an upcoming water sensor project from the University of Delaware for the Town of Slaughter Beach.

**Please turn in your completed comment cards at the back
of the room to receive a ticket for the buffet dinner.**

[Open House Displays & Stations to Visit](#)

Welcome Table

- Please sign in before you begin participating

Kids Activity Table

- Coloring sheets and activities are available here for little ones!

Community Values Survey

- See the results of the community values survey
- Tell us your thoughts on the proposed Town Vision Statement that was created with these results

Flood and Wildfire Hazards Display

- Display walls describe hazards that may be impacting the Town

Town of Slaughter Beach Maps

- Mark the maps and fill out comment cards to tell us about how past floods and wildfires have impacted the community

Extreme Heat Table

- Provide comments to DNREC Division of Energy and Climate about past impacts from extreme heat on the community.

Floodplain Map Table

- Speak with DNREC's Flood Mitigation Office about FEMA's floodplain maps

University of Delaware Water Sensor Table

- Learn about coastal hazard resources from UD and about an upcoming project that will be installing water sensors in Town
