Re: [Delaware Department of Natural Resources and Environmental Control
Delaware Bay Beach Renourishment Project](#)

Dear Ms. Holmes:

DNREC's Division of Watershed Stewardship is requesting a permit to perform the placement of sand fill at Pickering, Kitts Hummock, and Bowers Beach along the Delaware Bay. The project is for renourishment of a severely eroded beach via truck-fill method to provide erosion and storm damage protection to public streets, utilities, and private and commercial structures landward of the coastline. The project will also serve to restore a section of shoreline used for public recreation. Enclosed you will find original copies of the following documents in support of our request:

- The Federal Consistency Application
- Copy of USACE Application

DNREC would like to perform this work as early as fall/winter of 2023-2024, and we would appreciate your processing of this permit application at your earliest convenience. Current permits do not expire until December 31, 2023. Additionally, DNREC requests that the issued permit expiration date is consistent with the federal permit expiration date. If you should have any questions on the above and/or enclosed, please feel free to direct all correspondence to Kathleen Bergin at Kathleen.Bergin@delaware.gov or 302-739-9453.

Sincerely,

Kathleen Bergin
