

Russell W. Peterson Urban Wildlife Refuge- Water Trail Project
A Historical Perspective.

Robert Meadows

Delaware Division of Fish & Wildlife
Mosquito Control Section
Northern DE Wetland Rehabilitation Program

Northern Delaware Wetland Rehabilitation Program

By ecologically improving numerous individual wetland sites, a corridor within an urban landscape will be reestablished providing much needed fish and wildlife habitat, as well as other wetland values and functions.

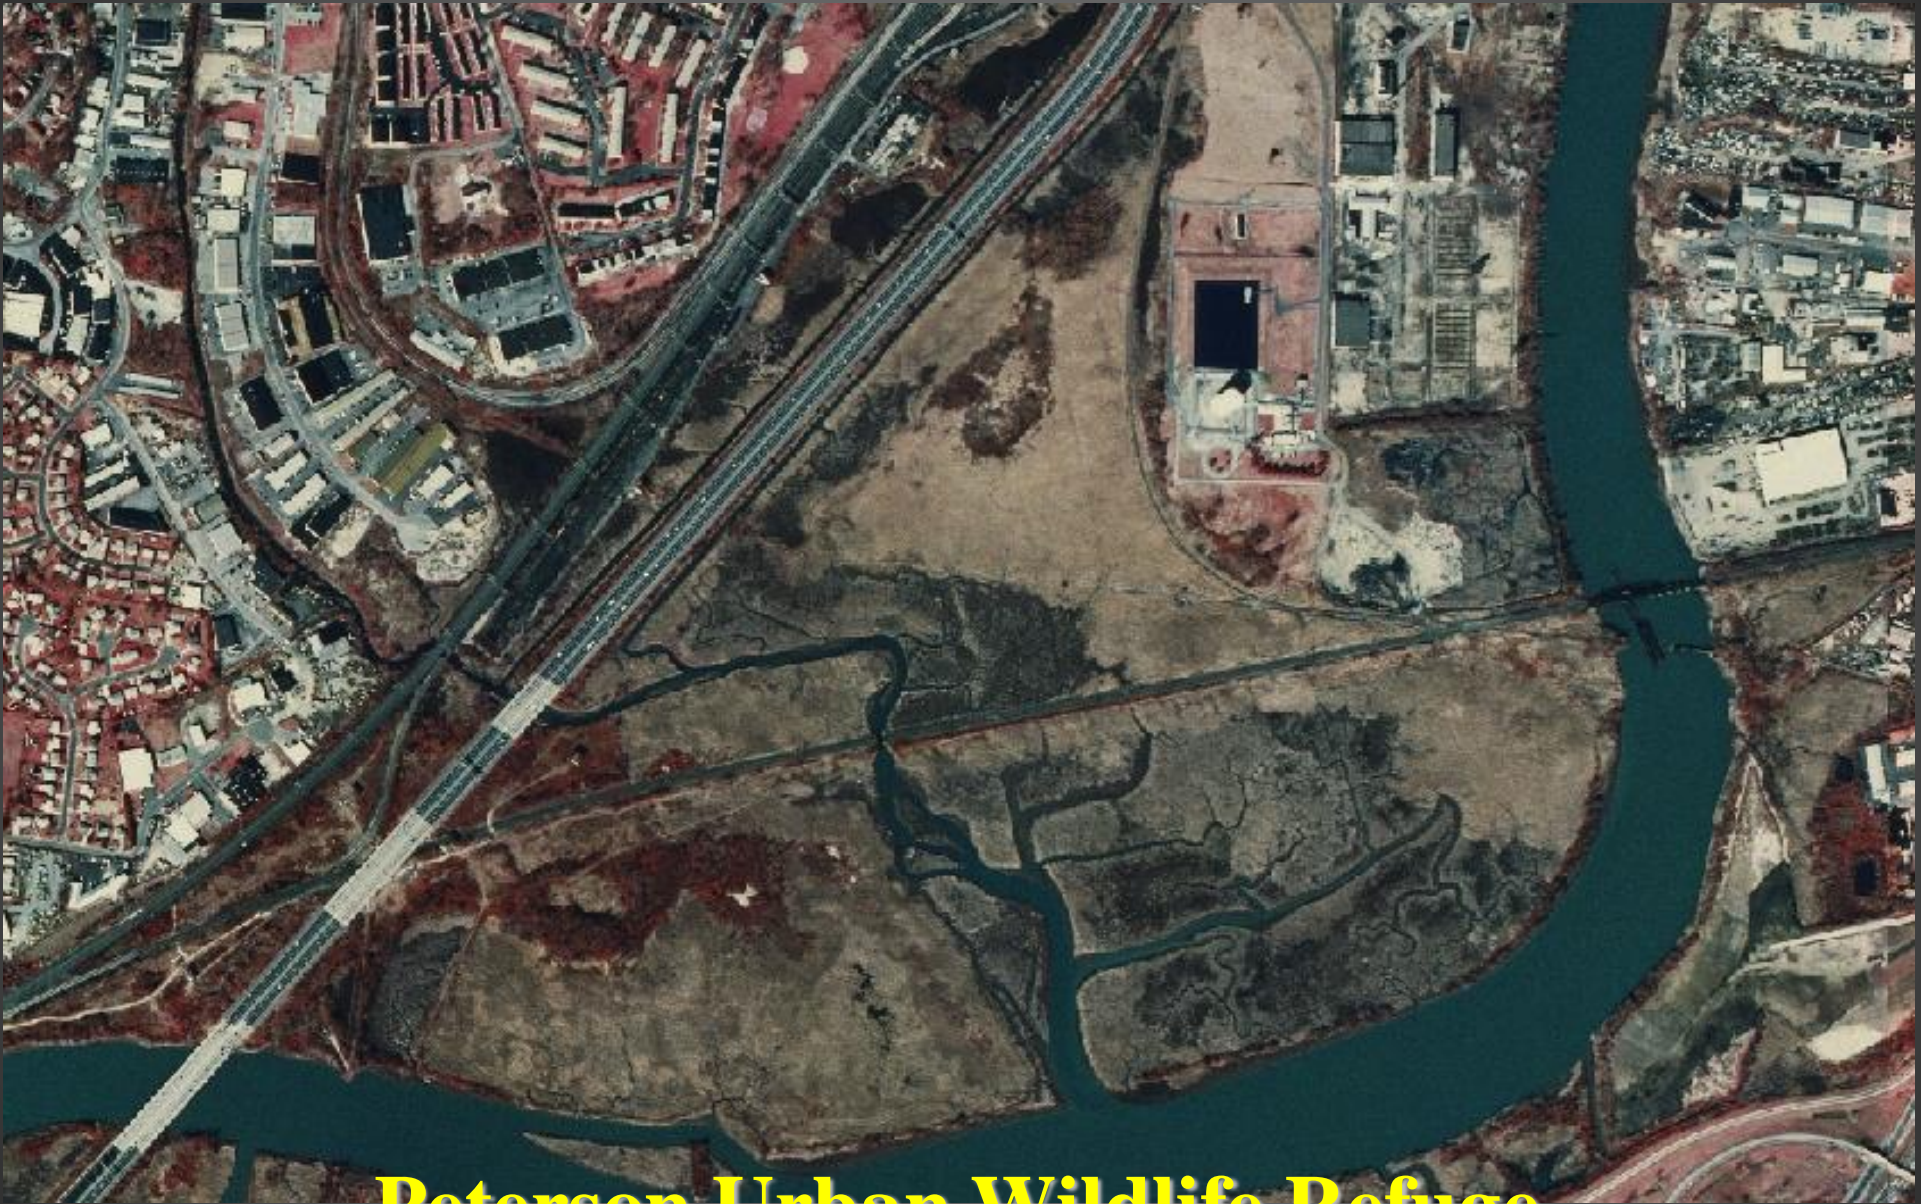

Gambacorta Marsh - Self Regulating Tide Gate

Contamination!

Peterson Urban Wildlife Refuge

Controlled Burns

Removed over 300,000 cu. yds. of fill
To restore tidal hydrology
