Total Vehicle Price \$ _____

Agreed Upon Value: \$ _____

(This can be found in the payment box, line A of your lease agreement)

***Note:** To be eligible for a rebate, the total vehicle price cannot exceed \$60,000. The total vehicle price is the final purchase price including added features, equipment and extended warranties. Taxes, tags, rebates, incentives, and trade-ins are not included as part of the total vehicle price. **Applications must be submitted within 90 days of the vehicle's purchase date.**

The Delaware Clean Vehicle Rebate Program provides rebates for the purchase or lease of new battery electric and plug-in hybrid electric vehicles as well as dedicated propane and dedicated compressed natural gas vehicles ([full program guidelines](#)). **To be eligible for a rebate under Funding Round Five, the vehicle must be new and purchased or leased before December 31, 2022 and have a Total Vehicle Price of \$60,000 or less.**

Applications must be submitted within 90 days of the vehicle’s purchase date.

**The Delaware Division of Climate, Coastal, and Energy reserves the right to suspend or extend the program at any time based on availability of funding.*

Applicant Eligibility

The following individuals and entities are eligible for rebates under the Delaware Clean Vehicle Rebate Program:

- Delaware residents;
- Businesses, non-profit organizations, or other organizations with both a physical locations and address in Delaware and a Delaware business license;
- State agencies or departments, schools, municipal or county governments in the State of Delaware or;
- Active duty military members stationed in Delaware with a temporary Delaware residential address but with permanent residency in another state.

Purchased Electric Vehicle Eligibility

The following criteria must be met in order for an electric vehicle to qualify for a rebate ([list of eligible vehicles](#)):

- Battery Electric Vehicles – Vehicles that are powered by high-capacity batteries that are charged using an external power source. Battery Electric Vehicles do not have a gasoline or diesel internal combustion engine (e.g. the Chevrolet Bolt).
- Plug-in Hybrid Electric Vehicles (PHEV) – Vehicles that use batteries that are charged by an external power source in conjunction with a gasoline or diesel internal combustion engine (e.g. the Toyota Prius Prime).

Type of Vehicle/Vehicle Technology	Rebate
New Battery Electric Vehicles (including vehicles with gasoline range extenders) under \$60k Total Vehicle Price	\$2,500
New Plug-in Hybrid Electric Vehicles under \$60k Total Vehicle Price	\$1,000
Vehicle-to-Grid capable Battery Electric and Plug-in Hybrid Electric Vehicles	\$1,000
New Dedicated Propane or Natural Gas Vehicles	\$1,500
