Clear All

*** This report is intended for lobstermen who fish in state waters. You may also use this report for your offshore lobstering activity; however, DNREC Division of Fish and Wildlife will also accept a copy of your Federal VTR. If all of your lobstering occurs in Federal waters, copies of your Federal VTR will satisfy all of the state's reporting requirements and you won't need to report separately on this state logbook form, provided that you report all of the months that you did not lobster.
